

**SAMSUNG
SMART Doorlock**

Safe From electric shocks

By applying the circuit technology that can withstand high-voltage electric shock, safety was increased

Fire Detection Sensor mounted

If the indoor temperature is detected to be 60 degrees or above, an alarm sounds simultaneously with the automatic release of lock of the door

Intrusion detection alarm sound

In the case of physical shocks or repeated errors in gaining authentication for access, alarm is sounded to reduce the intrusion accidents.

Automatic lock/lockout feature

You do not have to worry anymore about forgetting to lock the door as the door locks automatically as soon as it is closed.

New Push-Pull design is easier to use. (Push to enter, pull to exit)

Speedy and accurate access with the optical finger print authentication

Automatic wake-up on approaching by using IR sensor

The door lock status is displayed on the front panel in text for the user's convenience

Manner mode is available for quiet entrances in late nights (Button sound is muted)

Specification

Password Combination 4 - 12 Digit

Capacity 100 fingerprints (max.)

Battery life | Approximately 10 months

Power DC 60V (AA Alkaline Batteries) x 8

Capacity 31 (max.)

Fire & Thief Alarm

Door Thickness 3.8 - 6cm

Emergency External Battery

Emergency Manual Key

Digital Touch Keypad

Item Package Quantity 1

Color gold or silver
