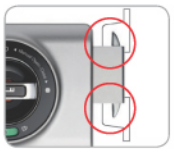
Samsung Digital Door Lock SHARK SHS-2320

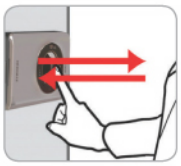
Enhanced Security

Enhanced Lock / Double Claw Bolt

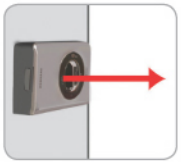
The addition of double claw bolts is a further measure to prevent forced intrusion, ensuring your safety.



Intrusion Prevention / Infrared Ray Sensor



The door can not be opened even if the Open/Close button is pressed inside unless the sensor detects inside movement.



[When break-in happens]
When the door is unlocked from the inside without sensing any movement inside, the door will not open.

Double Authorization Mode / Both RFID card & User Access Code

With double authorization mode set up, both user access code and card must be authenticated to open the door, strengthening security.

One Button - One Touch / Anti-theft Setup

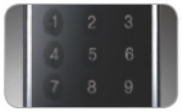
When leaving, the user can set up the anti-theft function by simply pressing button, preventing any tempering by creating a warning sound.

Fingerprint Marks are No Longer a Concern

User access code will be pressed after press two random numbers, preventing intruders from checking the fingerprint marks left.

2 random numbers appear before entering user access code

Press the user access code



Impossible to guess user access code due to random fingerprint mark

Convenient Accessibility

User Access Code

RFID Card or Key Tag
