Overview

1. Package Contents

Camera (x1)

Power Adapter (x1)

Power Cable (x1)

Drill Template (x1)

Mounting Plate (x1)

Screw Kit (x1)

Regulatory Information (x1)

Quick Start Guide (x1)

i The power adapter's appearance is subject to the actual one you have bought.

2. Basics

Name	Description
LED Indicator	Solid Red: Camera starting up.
	Slow-flashing Red: Network exception.
	Fast-flashing Red: Camera exception (e.g. Micro SD card error).
	Solid Blue: Video being viewed in the EZVIZ app.
	Slow-flashing Blue: Camera running properly.
	Fast-flashing Blue: Camera ready for Wi-Fi connection.

Slide up the sphere and open the cover

Name	Description
Micro SD Card (sold separately)	Initialize the card in the EZVIZ app before using it.
Reset Button	Hold for 5 seconds to restart and set all parameters to default.

Setup

1. Power-on

Plug the power cable into the camera, and then plug the power adapter into an outlet as shown in the figure below.

2. Connect to the Internet

1. Get the EZVIZ App

- Connect your mobile phone to Wi-Fi (suggested).
- Download and install the EZVIZ app by searching "EZVIZ" in the App Store or Google Play™.
- Launch the app and register an EZVIZ user account.

i If you have already used the app, please make sure that it is the latest version. To find out if an update is available, go to the app store and search for EZVIZ.

2. Add camera to EZVIZ

- Hold the reset button for 5s. When the LED indicator flashes blue quickly, indicates that the camera is ready for Wi-Fi configuration.

- Log in to your EZVIZ user account.
- On the Home screen, tap “+” on the upper-right corner to go to the Scan QR Code interface.
- Scan the QR code on the Quick Start Guide cover or on the body of the camera.

- Follow the EZVIZ app wizard to finish Wi-Fi configuration.
- i** If you want to change your camera's Wi-Fi, press and hold the reset button for 5s and repeat the steps above.

Installation

1. Use Micro SD Card (Optional)

1. Insert Micro SD Card

- Rotate the sphere upwards until you see the card slot.
- Insert the Micro SD card (sold separately) into the card slot as shown in the figure below.

2. Install the Base

The camera can be placed horizontally or mounted on the ceiling. Here we take ceiling mounting as an example.

- 1 • Please install the device indoor as the device is not waterproof.
- Make sure the ceiling is strong enough to withstand three times the weight of the camera.
- Avoid positioning the camera in an area that gets a lot of light shining directly into the camera lens.
- Recommended mounting height: 3 meters above the ground.

- Place the drill template onto the surface you have chosen to mount the camera.
- (For cement wall/ceiling only) Drill screw holes according to the template, and insert three anchors.
- Use three metal screws to fix the camera base.

3. Install the Camera

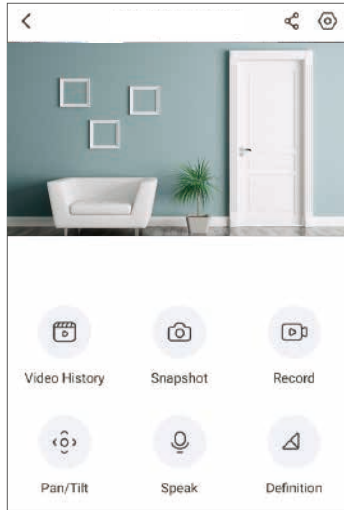

Mount the camera to the base, and turn it clockwise until it is fixed.

View Your Device

1. Live View

When you launch the EZVIZ app, the device page displays as shown below.
You can view and listen to a live feed, take snapshots or recordings, and choose video definition as needed.

i Swipe left and right across the screen to see more icons.

Icon	Description
	Share. Share your device with anyone you want.
	Settings. View or change the device settings.
	Video History. View Recordings.
	Snapshot. Take a snapshot.
	Record. Manually start/stop recording.
	Pan/Tilt. Supports horizontal and vertical rotation.
	Speak. Start using talk and listen.
	Definition. Select video resolution from Ultra HD, Hi-Def or Standard.
	Privacy Mode. Enable to hide the screen display.

i Please refer to the actual interface for specific information.

2. Settings

In the settings page, you can set the parameters of the device.

Parameter	Description

Restart	Tap to restart your device.
Delete Device	Tap to delete the device from your EZVIZ account.
 For privacy protection, please remove SD card or other storage media(if any)when transferring the device to others.	

EZVIZ Connect

1. Use Amazon Alexa

These instructions will enable you to control your EZVIZ devices with Amazon Alexa. If you run into any difficulties during the process, please refer to **Troubleshooting**.

Before you start, make sure that:

1. EZVIZ devices are connected to the EZVIZ app.
2. In the EZVIZ app, turn off the "Image Encryption" in the Device Settings page.
3. You have an Alexa-enabled device (i.e Echo Spot, Echo-Show, All-new Echo-Show, Fire TV (all generations), Fire TV stick (second generation only), or Fire TV Edition smart TVs).
4. The Amazon Alexa app is already installed on your smart device, and you have created an account.

To Control EZVIZ devices with Amazon Alexa:

1. Open the Alexa app and select "Skills and Games" from the menu.
2. On the Skills and Games screen, search for "EZVIZ", and you will find "EZVIZ" skills.
3. Select your EZVIZ device's skill, then tap **ENABLE TO USE**.
4. Enter your EZVIZ username and password, and tap **Sign in**.
5. Tap the **Authorize** button to authorize Alexa to access your EZVIZ account, so that Alexa can control your EZVIZ devices.
6. You will see "EZVIZ has been successfully linked", then tap **DISCOVER DEVICES** to allow Alexa to discover all your EZVIZ devices.
7. Go back to Alexa app menu and select "Devices", and under devices you will see all your EZVIZ devices.

Voice Command

Discover a new smart device via the "Smart Home" menu in the Alexa app or the Alexa Voice Control function. Once the device is found, you can control it with your voice. Speak simple commands to Alexa.

-  Your device's name for example: "show xxx camera," can be modified in the EZVIZ app. Every time you change the name of the device, you will need to discover the device again to update the name.

Troubleshooting

What do I do if Alexa fails to discover my device?

Check if there are any Internet connecting problems.

Try to reboot the smart device and re-discover the device on Alexa.

Why does the device's status show "Offline" on Alexa?

Your wireless connection might have been disconnected. Reboot the smart device and re-discover on Alexa.

Internet access on your router could be unavailable. Check if your router is connected to the Internet and try again.

-  For details about countries that support the using of Amazon Alexa, see its official website.

2. Use Google Assistant

With the Google Assistant, you can activate your EZVIZ device and watch live by speaking Google Assistant voice commands.

The following devices and apps are required:

1. A functional EZVIZ app.
2. In the EZVIZ app, turn off the "Image Encryption" and turn on the "Audio" in the Device Settings page.
3. A TV with functional Chromecast connecting to it.
4. The Google Assistant app on your phone.

To get started, follow the steps below:

1. Set up the EZVIZ device and make sure it works properly on the app.
2. Download the Google Home app from the App Store or Google Play Store™ and log into your Google account.
3. On the Myhome screen, tap "+" on the upper-left corner, and select "Set up device" from the menu list to go to the Set up interface.
4. Tap **Works with Google**, and search for "EZVIZ", where you will find "EZVIZ" skills.
5. Enter your EZVIZ username and password, and tap **Sign in**.

6. Tap the **Authorize** button to authorize Google to access your EZVIZ account, so that Google can control your EZVIZ devices.
7. Tap **Return to app**.
8. Follow the above steps to complete the authorization. When synchronization is completed, EZVIZ service will be listed under your list of services. To see a list of compatible devices under your EZVIZ account, tap on the EZVIZ service icon.
9. Now try some commands. Use the name of the camera that you created when you set up the system.

Users can manage devices as a single entity or in a group. Adding devices to a room allows users to control a group of devices at the same time using one command.

FAQ

Q: What kind of network connection does the camera support?

A: The camera supports wireless connection and wired connection, which can be selected according to the network situation.

Q: If the camera is offline, will the video recording be continued?

A: If the camera is powered on but disconnect to the Internet, then video recording on micro SD card will continue but cloud recording will stop. If the camera is powered off, both video recordings will stop.

Q: Why the alarm is triggered when nobody in the image?

A: Try to set the alarm sensitivity lower. Please notice that vehicle and animals are also the trigger source.

Q: What if I forget my password?

A: Please go to the EZVIZ app > login page, tap on "Forgot password?" > Enter your account's email address or phone number. (Send)> Input the verification code > Reset your password.

Q: Why can't I receive my verification code?

- A:
1. If you registered the account via email, please check your junk mail.
If still haven't received the verification code, you might have email filter/block restricting this email, please check with your email provider.
 2. If you registered an account via mobile number, please confirm whether your mobile can receive SMS short codes or not.
 3. If you still haven't received the verification code, please provide your number, your country, time of request to the support center at support@ezvizlife.com or contact your regional support team.

Q: How to solve Wi-Fi configuration failed?

A: Please check the following settings:

1. Ensure that your mobile phone is connected to the Wi-Fi and the Wi-Fi network is working properly.
2. Check the network condition:
 - Make sure your network has no firewall or other limits.
 - Ensure the router can distribute IP address to your device or disable the static IP setting (DHCP is enabled by default on all EZVIZ devices).
3. Reset your camera; ensure that your device is in ready mode or Wi-Fi configuration mode > then use the EZVIZ app for device Wi-Fi configuration.

 For additional information about the device, please refer to www.ezvizlife.com.
